Commissioner Jim Ridling

About ALDOI

The Alabama Department of Insurance (ALDOI) is the regulator of the sale of insurance in Alabama, working diligently to balance the needs of consumers with the needs of a competitive insurance industry. The ALDOI enforces all state laws that provide a fair and stable insurance marketplace and works to make certain that insurers comply with all state laws to protect policyholders.

The state of Alabama is part of the U.S. insurance regulatory framework which is a highly coordinated state-based national system designed to protect policyholders and to serve the greater public interest through the effective regulation of the U.S. insurance marketplace.

Through the National Association of Insurance Commissioners (NAIC), U.S. insurance regulators establish national standards and best practices, conduct peer reviews and coordinate their regulatory oversight to better protect the interests of consumers while ensuring a strong, viable insurance marketplace. U.S. insurance regulators also participate in the International Association of Insurance Supervisors (IAIS) along with the NAIC by participating in major standard setting initiatives, including working with fellow regulators from around the world to better supervise cross-border insurers, identifying systemic risk in the insurance sector, and creating international best practices.

ALDOI's mission is to serve the people of Alabama by regulating the insurance industry, providing consumer protection, promoting market competition and stability, improving structural resiliency, investigating fraud and enforcing fire safety standards and laws.

After more than 13 years of distinguished service, Insurance Commissioner Jim Ridling will retire in 2022.

NAIC Participation

The National Association of Insurance Commissioners (NAIC) is the U.S. standard-setting and regulatory support organization created and governed by insurance commissioners from the 50 states, the District of Columbia and five U.S. territories. Its members, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the U.S. Through the NAIC, state insurance regulators establish standards and best practices, conduct peer review, coordinate regulatory oversight, model laws and regulations and represents state regulators' collective domestic and international views.

The NAIC maintains extensive systems linking all state insurance departments and provides financial, actuarial, legal, research, technology, market conduct, economic expertise, staff research, monitoring federal activity, submitting legal briefs, etc. With the continuing advancement of the federal government into the insurance regulatory arena, the NAIC is on the front line of the fight to preserve the system of state-based insurance regulation, recognizing that states are better able to protect consumers, adapt to meet economic and financial challenges, enforce regulation and foster competition.

State Insurance Commissioners, through the NAIC, work with fellow regulators from around the world to better supervise cross-border insurers, identifying systemic risk in the insurance sector and creating international best practices.

The Alabama Department of Insurance participates in the NAIC's State Based Systems (SBS), an electronic system designed to provide a comprehensive, web-based application for use by state regulators in support of insurance regulatory functions.

Its goal is to enable state insurance departments to more efficiently and effectively process license applications, renewals, inquiries, complaints, enforcement actions, etc. with a minimum of effort and remain compliant with national uniformity initiatives.

The ALDOI is a member of the NAIC Executive Committee and four of seven major issue committees including various working groups and task forces. Commissioner Ridling is the Chairman of the Governance Review Task Force, a subgroup of the NAIC Executive Committee.

The NAIC conduct three national meetings per year, a week-long issues-based "Insurance Summit", a Washington Fly-In and other various other targeted meetings. The ALDOI also holds membership on NAIC liaison committees to consumers, industry and state and federal government. A member of the ALDOI staff serves as chairman of NAIC Health Actuarial Task Force. Additionally, Commissioner Ridling serves as Chairman of the NAIC Southeast Zone consisting of the Insurance Commissioners from 14 states and U.S. territories.

The Alabama Department of Insurance

Education and Outreach

In 2018, the Alabama Department of Insurance launched an Education and Outreach initiative, designed to inform Alabama consumers about insurance issues that impact their lives. The department continues to build on that effort.

The Education and Outreach Coordinator provides helpful information on topics like flood insurance, distracted driving safety, how to avoid potential fraud and things to be aware of when choosing an insurance policy or agent. Services and presentations are offered to Alabama consumers at no charge.

While the Covid-19 crisis presented challenges in 2020 and 2021, we were able to distribute packets of information to consumers at the Alabama National Fair and schedule limited in-person meetings to discuss requested insurance topics. Social media also plays a crucial role in educating Alabamians. Current information is shared via the Alabama Department of Insurance Facebook and Twitter accounts on a regular basis.

The Alabama Department of Insurance

The Consumer Services Division primarily receives individual consumer complaints and inquiries regarding insurance. Additionally, it provides educational material and assistance for senior citizens and other consumers, responds and deploys staff members to disaster sites to assist victims in expediting insurance claims, participates in consumer outreach programs by speaking to community and consumer groups throughout the state, and investigates alleged violations of insurance laws and rules.

In 2021, Consumer Services handled more than 5,294 complaints and inquiries, as follows.

Key accomplishments

The Consumer Services division assisted Alabama consumers with understanding their health insurance benefits related to the Covid-19 pandemic.

In response to the new Alabama Pharmacy Benefits Manager (PBM) Licensure and Regulation Act, the Consumer Services Division has developed processes and materials to license and start the regulatory process. Our goal is to help consumers and pharmacists understand the new legislation and assist them with their concerns should there be a need to file a Complaint concerning PBM prescription drug practices.

Use of the division's live chat on the aldoi.gov website continues to grow, allowing consumers to speak with a live representative for help with their insurance questions.

Strengthen Alabama Homes

The Strengthen Alabama Homes program provides grants to Alabama residents to assist them in residential wind fortification on existing, owner occupied, single family homes. Funding for this program comes from the insurance industry in Alabama and is not funded from the state's general budget, nor is it tied to a federally funded program.

Wind fortification consists of construction methods that strengthen a home against severe storms, high winds and wind-driven rain. Fortification reduces the risk of damage during storms, and in Alabama, provides homeowners discounts to their wind insurance premium and deductible. The fortification standard adopted by the Strengthen Alabama Homes program is known as the FORTIFIED Home™ program and it was developed by the Insurance Institute for Business and Home Safety (IBHS). To receive an SAH grant, a resident must reach the IBHS FORTIFIED Bronze or Silver standard.

SAH grants will pay 100 percent of the cost of mitigation up to \$10,000. The grant award amount may not cover the entire cost of the work needed. Work completed must meet the FORTIFIED™ Bronze or Silver standard. Homeowners must pay a small fee for the FORTIFIED™ Evaluation.

A FORTIFIED™ evaluation is a required step in the FORTIFIED™ process and provides homeowners and contractors an understanding of the work needed to mitigate a home. A certified evaluator will perform an initial review of the current condition of the home and provide documentation of the steps needed to reach either the FORTIFIED™ Bronze or Silver level. As mitigation continues, the evaluator will work with contractors to document all the work and submit the home for certification. Homes with a FORTIFIED™ Designation in Alabama receive discounts ranging from 20 to 50 percent on the wind portion of their homeowner's insurance premium.

The Alabama Department of Insurance

Strengthen Alabama Homes

Key accomplishments

The Strengthen Alabama Homes Program continued working on homes in inland Alabama in 2021, completing projects in 19 counties.

The year 2021 proved to be a challenge due to the lingering effects of the COVID-19 pandemic. Supply chains for building materials were impeded not only by COVID but also due to recurring demand, labor shortages and rising prices of materials.

However, the work continued. As of December 2021, the program has completed mitigating 3,079 homes to the FORTIFIED standard and had a grant budget of \$15 million available going into 2022.

Alabama leads the nation in the number of fortified homes. More than 35,000 homes are built to the FORTIFIED standard statewide.

The Strengthen Alabama Homes program looks forward to continuing our work of protecting homes and families, keeping Alabama the most fortified state in the country.

State Fire Marshal's Office

The Alabama State Fire Marshal's Office, established in 1909, is the law enforcement division of the Alabama Department of Insurance and led by State Fire Marshal Scott Pilgreen. In 1919, the first legislative act regarding the authority, duties and responsibilities of the office was adopted and signed into law. In 1953, the State Fire Marshal's Office became a division of the ALDOI.

The Fire Marshal, Assistant Fire Marshal and deputies are state police officers and carry general police powers statewide. The Alabama State Fire Marshal's office consists of State Fire Marshal Scott Pilgreen, Assistant State Fire Marshal Mark Drinkard, and 24 deputies, 10 Fraud Investigators/Special Agents and seven administrative support personnel. The deputies are located in field offices throughout the state and are responsible for investigations and inspections in their respective districts.

The SFMO conducts inspections of buildings and properties to ensure they are safe for occupancy for their intended use and that they provide adequate exits in the event of a fire or other emergency. The SFMO adopts and enforces various Building, Life Safety and Fire Prevention Codes. The State Fire Marshal is charged with the promulgation and enforcement of regulations pertaining to building construction and fire safety for the citizens of Alabama. The office also regulates and permits the fireworks industry, fire sprinkler industry, fire alarm industry, blasting industry, destructive devices and cigarette manufacturers Fire Safety Compliant Cigarettes (FSC).

They investigate fires, explosions and any related crimes. Assistance is provided to fire departments and other law enforcement agencies and provide support to the courts for prosecution of cases made by its personnel. The SFMO also provides training for the public, courts, fire and law enforcement departments in fire prevention, fire investigation, detection of arson, and education for the interpretation of fire and building codes and life safety regulations.

The State Fire Marshal's Office releases its own annual report, available at www.firemarshal.alabama.gov/.

The Alabama Department of Insurance

History of the Department

In 1897, the Legislature passed a comprehensive act to regulate the business of insurance in this state, with the Secretary of State serving as Insurance Commissioner ex officio and the chief officer of the Department of Insurance. In 1915, a completely “separate and distinct” department was created as the Department of Insurance, with its chief officer, to be known as the Commissioner of Insurance, appointed by the Governor.

In 1923, the Legislature “created, lieu of the Department of Insurance, the Bureau of Insurance” with its chief officer, entitled the “Superintendent of Insurance,” appointed by the Governor. In 1939, a Department of Commerce was created by the Legislature, consisting of the Bureau of Banking, the Bureau of Insurance and the Bureau of Building and Loan. In 1951, the department was again made a separate state agency called the Department of Insurance. The title of the chief officer was last changed in 1971 to Commissioner of Insurance.

The National Association of Insurance Commissioners (NAIC) is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories. The NAIC has established a formal certification program to accredit each state insurance regulator, requiring risk-focused financial surveillance to include on-site examinations, and requires solvency-related model laws, rules and guidelines that have been adopted through consensus and collaboration. Accredited insurance departments are required to undergo a comprehensive review by an independent review team every five years to ensure the departments continue to meet baseline financial solvency oversight standards. The Alabama Department has been continuously accredited by the NAIC since 1995.
