

General Guidelines for Preneed Contracts and Cemetery Property Sales Logs

Funeral homes and cemeteries are required to maintain a log of all preneed merchandise and service sales. Endowment care cemeteries are required to maintain a log of all cemetery property sales. A preneed entity that is a combination funeral home/cemetery must maintain both logs.

The logs should show all transactions made since April 30, 2002. The logs must be in the form of or equivalent to the sample logs listed below.

Revision to General Guidelines:

The revised logs and instructions are effective 1-1-2015. You do not have to make these changes

retroactively back to May 2002. The revised logs and instructions apply on a go-forward basis from January 1, 2015. You must still maintain the logs previously required. Those logs should date from May 2002 through December 31, 2014.

The logs must be available for inspection at all times and must contain at least the following information:

The specific requirements are contained in Preneed Regulation 482-3-005-.04.

- 1) **Contract Number** - Sequentially numbered preneed contract number. If there is a break in the sequence, then you should retain the contract that was not used or other evidence to support the break. If someone supplies your contracts and there is a large break in the sequence, then some sort of documentation from the supplier referencing the last contracts provided, the fact that there is a break, and the next group of contracts in the sequence being provided. The letter should also contain contact information for the supplier (trust company, insurance company, etc.).

- 3) **Name of Purchaser** – Name of the person signing the contract
- 4) **Net Amount of Contract** – The contract price after insurance credits and all discounts, but prior to a down payment. If the customer were to write a check to pay for the contract in full at the time the contract was executed, what amount would the check need to be for.
- 5) **PIF/Instl** - Type of payments (paid-in-full = PIF or installments = Instl)

funds to trust for the contract

- 10) **PIF Date** – Date (include month, day, year) the contract was paid in full, should match the “Date of Last Payment.” If paid in full at signing, then the date will match the “Date of Contract” and “Date of Last Payment”
- 11) **Face Amount of Insurance** – The amount of insurance being purchased to fund the contract. If the insurance has a graded or limited death benefit, then the ultimate value should be recorded.
- 12) **Ultimate Value of the Annuity** – The ultimate amount of the annuity, assuming the payments are made (amount/timing) according to the contract terms.
- 13) **Partial Delivery** – Yes/No – for instance if you install a vault or place a memorial, but prior to need and the contract has not been completely fulfilled. If using trust, you might be entitled to remove the related funds from trust.
- 14) **Date of Partial Delivery** – The date (include month, day and year) you set the memorial or installed the vault, etc. If you make partial delivery on more than one date, then you may add additional date columns or just revise the date upon each subsequent delivery.
- 15) **Date Contract Fulfilled** – The date (include month, day and year) you have completed 100% of your obligations under the contract.
- 16) **Date Contract Voided or Cancelled** – This column would only be used in the instances in which a contract is voided, cancelled or transferred. This is the date (include month, day and year) a written request is received from the purchaser or date the seller cancels or voids the contract under the terms of the contract (purchaser default, policy lapse, etc.).
- 17) **Date of Refund** – If a contract is cancelled, a refund is required within 30 days. This should be the date the refund is issued.
- 18) **Amount of Refund** – The actual amount of the refund made to the purchaser. If you are keeping an amount for cancellation or refund, then this should be reflected in the amount recorded (deducted).

- (2) The bottom of each page of the logs must be numbered sequentially.
- (3) All contract logs must be typed or printed legibly.
- (4) If the contract logs are not being created using electronic software, such as Excel, all contract items should be completed using black or blue ink.
- (5) If the contract logs are not being created using an electronic spreadsheet, the column for “Amount Collected to Date,” “Date of Last Payment,” “Amount Trusted to Date,” and “Date of Last Trust Deposit” may be written in pencil until the contract is paid-in-full.

The determination shall be based upon the fair market value of the trust at the time of determination and the proportionate share of the fair market value of the trust attributable to each contract holder.

If your trustee or insurance provider does not help you track this information in some form or fashion at the contract level, there are trustees and insurers that specialize in Preneed and will do this for you, some at no additional cost. There are also third-parties that will work with your current trustee to help track this information for you.
