Beginning on or about October 1, an approved provider may request approval for the next succeeding calendar year in accordance with instructions provided by the Department. A provider must have applied for and obtained approval before offering or conducting courses in the next succeeding calendar year. The initial fee for approval of a prelicensing provider is hereby set at \$75. The annual renewal fee for a prelicensing provider is hereby set at \$50.

(3) A person teaching any approved course of instruction or lecturing at any approved seminar or program shall qualify for the same number of classroom hours as would be granted to a person taking and successfully completing such course, seminar or program.

(4) No independent adjuster may receive credit for any approved course more than once in any reporting period.

(5) For the purposes of this chapter, "classroom hour" shall mean a unit of at least fifty (50) minutes of participation in an approved course. This unit of measure shall apply to any classroom course, correspondence course, internet course, or other program or seminar of instruction approved by the Commissioner. Not more than ten (10) minutes of any sixty (60) minute period may be used for breaks, roll-taking, or administrative instructions. The total classroom hours, sometimes also referred to as "credit hours," for an approved course will be assigned by the Department in the course approval process.

(6) Independent adjusters also licensed as insurance producers need only complete a total of 24 classroom hours in approved courses. Courses approved for insurance producers will also count toward the education requirement for independent adjusters.

482-1-151-12 Continuing Education Providers.

(1) The Commissioner shall approve and authorize providers of continuing education courses and programs, and will designate any such course as being acceptable for the purposes of this chapter. Each such authority holder must apply annually for the continued authority to offer continuing education courses in this state.

(2) The courses or programs of instruction successfully completed which shall be deemed to meet the Commissioner's standards for continuing educational requirements and the number of classroom hours for which they are equivalent are:

(a) Any course or program of instruction or seminar shall, subject to the approval of the Commissioner, qualify for the equivalency of the number of classroom hours assigned thereto by the Commissioner.

(b) Any correspondence or internet course approved by the Commissioner shall qualify for the equivalency of the number of classroom hours assigned thereto by the Commissioner. To be approved, a correspondence or internet course must include an appropriate testing instrument requiring a grade of 70 percent to successfully complete the course. The examination must be administered by a third party proctor, who must sign an affidavit attesting to the fact that the student received no outside assistance in the completion of the final examination. The proctor cannot be a friend, relative, or co-worker of the licensee, nor anyone with a financial interest in the success of the licensee taking the examination.

(3) The commissioner shall not approve a course under this chapter:

(a) That is designed to prepare an individual to receive an initial license under Chapters 7 or 9A of the Insurance Code.

(b) Which deals only with office skills.

(c) Which concerns sales promotion and sales techniques.

(d) Which deals with motivation, psychology or time management.

(4) Every authorized provider of continuing education courses in this state shall, in accordance with the online process approved by the Commissioner, file a record of all licensees successfully completing each course or program within ten (10) days of the date said course or program is completed. In the case of a correspondence or internet course, this record shall be filed within ten (10) days of the date the provider assigns a grade to the final examination required in subparagraph (2)(b).

(5) At the time of filing its original application for authority as a continuing education course provider, each provider shall pay a filing fee of \$300.00. Each year thereafter, every provider shall pay a renewal fee for the continuation of the authority to offer continuing education courses in this state of \$100.00. This renewal fee shall be paid each year during the renewal period of November 1 to December 31. If the renewal application and fee are not received by December 31, the provider approval and all courses approved for that provider will expire.

Chapter 482-1-151

(6) At the time of filing for course approval, providers shall pay a course approval filing fee of \$50.00 for each education course or program to be offered in this state. Once approved, no additional filing shall be required for a particular course or program unless the course materially changes. Please note that should the provider authority expire as indicated above, all courses approved for that provider will also expire. Should the provider again become authorized, all courses must be submitted for approval and the course approval fee indicated above must be paid for each such course.

482-1-151-13 Compliance.

(1)(a) Every independent adjuster subject to this chapter shall complete an application for license renewal in accordance with Rule 482-1-151-.10.

(b) The license of any individual or business entity independent adjuster failing to complete the application for license renewal within the time specified in paragraph (2) of Rule 482-1-151-.10 will expire but there is a 30-day grace period following the expiration during which time the licensee can renew with payment of one and one-half times the renewal fee. (2) Any licensee completing an application for license renewal in accordance with paragraph (1) above but failing to meet the educational requirements imposed by this chapter within the times set forth in this chapter will not be renewed until the licensee shall have complied with the educational requirements of this chapter.

(3) If the licensee has complied with the educational requirements of Rule 482-1-151-.11 and has otherwise complied with this chapter, the license will be renewed.

482-1-151-14 Effect of disciplinary actions.

(1) The willful violation of any material provision of this chapter may subject a licensee to an administrative proceeding.

(2) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, an applicant may be issued a license on a probationary basis or an existing licensee may be placed on probation for a specified

period of time or until certain specified conditions are complied with. A licensee on probation is allowed to become or remain licensed and to renew an existing license, as applicable, if the licensee has complied or is complying with the conditions specified in the settlement agreement, consent order, or other order imposing the probation during the stated term of the probation. During the term of the probation, the licensee remains subject to all applicable requirements of the Insurance Code, including, but not limited to, requirements concerning continuing education and license renewal. If so stated in the settlement agreement and consent order or in the order imposing the probation, failure to comply with the conditions set forth in the probation order may result in the immediate suspension or revocation of the license without further administrative proceedings.

(3) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be suspended for either a specified period of time or until certain specified conditions are complied with subject to the following:

(a) During the term of the suspension, the licensee may not engage in any actions or activity for which the license is required, but remains subject to all applicable requirements of the Insurance Code, including, but not limited to, requirements concerning continuing education.

(b) A suspended license may not be renewed if the renewal date occurs during the suspension term.

(c) A suspension is lifted upon expiration of its term or, if based on compliance with specified conditions, by an order issued upon the licensee's showing that the conditions have been met or complied with, or by an order issued after consideration of an application to lift the suspension has been submitted by the licensee. Upon lifting of the suspension, the license is deemed reinstated unless the license has expired or has otherwise terminated during the suspension term.

(d) If the license has expired or otherwise terminated during the suspension term less than twelve (12) months before the date on which the suspension is lifted, the licensee may immediately apply for a license without complying with any applicable prelicensing course and examination requirements. If over twelve (12) months have elapsed between the expiration or other termination of the license and lifting of the suspension, the licensee must comply with any applicable prelicensing course and examination requirements prior to applying for the license.

(4) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be revoked subject to the following:

(a) The Commissioner's acceptance of a "voluntary surrender" of a license in lieu of administrative proceedings to revoke the license is deemed a revocation for purposes of this section irrespective of whether the settlement agreement and consent order or other order, or information provided by the Department to the NAIC, characterizes the action as a "revocation."

ALABAMA INSURANCE REGULATION
Chapter 482-1-151

(b) From and after the date of revocation, the licensee may not engage in any actions or activity for which the license is required.

(c) A person whose license has been revoked must apply to the Commissioner for permission to apply for any form of license issued through the Department. Such application cannot be made before expiration of the later to occur of two (2) years after the revocation date or such longer period as may be specified in the revocation order. The application may be in the form of a letter addressed to the Commissioner with such attachments as the applicant may deem appropriate. Whether to grant such permission is at the sole discretion of the Commissioner and is dependent upon the receipt of satisfactory proof that the applicant has complied with such conditions for seeking a license, if any, specified in the revocation order, the conditions which led to the revocation have been corrected, and the possibility of recurrence of the conditions has been substantially mitigated or eliminated and should no longer be used to prevent the reapplication for license.

(d) If satisfied that reasons for the revocation are no longer present and should not be used to prevent the applicant from again becoming licensed, the Commissioner shall issue an order authorizing the applicant to again apply for a license. The applicant must comply with any applicable preclicensing course and examination requirements as if the applicant is initially applying for a license prior to applying for the license.
